Posted by Chelsea - 2008/05/22 18:04

You know the kind- with the red, orange, and yellowish decals? I want to build my sister a bike for college bc she is moving to nyc and this is the frame I want. a 52 or 53 would be best. I'll pay for itttt. If you know anyone who rides a bike like this or has a frame close to this to sell please contact me. I just want the frame so if you know someone who rides one and wouldn't mind selling the frame and keeping the components I'm so in. haha
